TAAVI RANNU

Game Developer/Programmer

☎ **+372 56481616**   @ **rannutaavi99@gmail.com**   🔗 **linkedin.com/in/taavirannu**

📍 **Tallinn, Estonia**

SUMMARY

Enthusiastic and dedicated Applyed Informatics student with a strong passion for game development and programming. Adept at collaborative teamwork, with a proven track record of working effectively across multiple teams on various game projects. Proficient in Unity and Unreal Engine, with hands-on experience in developing and deploying multiple small game projects. Skilled in programming languages such as C#, Python, and JavaScript, and thrives on tackling interesting coding challenges that pop up during game development.

PROFESSIONAL EXPERIENCE

Robot Operator

Starship Technologies

📅 2021 - 04/2021   📍 Tallinn, Estonia

Starship Technologies develops and deploys autonomous delivery robots. These small, wheeled robots are designed to transport goods, primarily food, groceries, and packages, within a local area, such as a neighborhood or a university campus. Starship's robots use a combination of sensors, cameras, and artificial intelligence to navigate sidewalks and deliver items to customers' doorsteps.

EDUCATION

Coding course Golang, Javascript, Rust, SQL

kood/Jõhvi

📅 08/2022 - Present   📍 Jõhvi, Estonia

Bachelor of Applied Informatics

Haapsalu Kolledž

📅 09/2021 - Present   📍 Haapsalu, Estonia

SKILLS

C#   Python   Javascript   Golang

Rust   SQL   REACT

Game Development   Level Design   Git

Unity   Godot   Unreal Engine

Blender   Affinity Designer

Agile development

STRENGTHS

🔀 **Interpersonal Skills**
Listen attentively, speak candidly, and treat others respectfully.

🪄 **Problem Solving**
A love for math and coding challenges. Capable of thinking on my feet

📑 **Passionate About The Industry**
Frequently dedicate time to attending presentations and discussions covering diverse aspects of game development.

ACHIEVEMENTS

🌐 **International Project**
Lead an international team for a game project. Worked with a team of 4 from 3 different countries, developing a visual novel game using the Agile workflow.

🎮 **Multiple Gamejam's!**
Developed several video game prototypes!

🏃 **Team-player**
Serving in the defense forces and collaborating on diverse group projects have honed my teamwork skills.
